

COLORANTI UNIVERSALI POLIMERICI SERIE 600 N-07 POLYMERIC UNIVERSAL COLORANTS SERIES 600

PROPERTIES

Colorants for PROGRESS TONATONE tinting system. The very latest in universal colouring pastes, with an extremely high organic and inorganic pigment content. Nonylphenol, lead and chromate free. With the innovative property of their new formulation, this new generation of colorants assures perfect compatibility with a wide range of both water- and solvent-based paints without altering their resistance properties.

COLORANTI UNIVERSALI 600 universal colorants have extremely high colouring power, meaning deep shades can be obtained with little universal colorant, and are perfectly compatible and mixable with colorants from the previous 800 series (while stocks last).

Available in 16 colours: 4 for interiors only, marked with the letter L

601 L LEMON-YELLOW

602 L GOLDEN YELLOW

604 L BRIGHT RED

605 L RED

12 for exterior and interior use, marked with the letters WL

COATING SYSTEM

Pour the colorant into the paint without thinning, and mix thoroughly with a suitable mixer.

Wait a few hours before applying the tinted product.

WARNINGS

Colorants marked with the letter L are not recommended for exterior use. Keep in a cool place away from heat sources in a tightly sealed bottle. Shake well before use. Do not use colorants 601-602-604-605-609 for limewash.

MAIN DATA AT 20 °C AND 70 % RELATIVE HUMIDITY
