Il sistema Colorimetrico TONATONE PROGRESS consente di realizzare, oltre alle tinte riportate su questa cartella, una serie praticamente infinita di colori e sfumature diverse in qualsiasi tipo di prodotto verniciante. Consultare l'archivio elettronico.

I colori presentati in questa cartella sono indicativi e possono subire col tempo leggere alterazioni dovute alla luce ed all'invecchiamento. Sono inoltre da considerarsi normali eventuali differenze di tonalità dovute alla granulometria e alla natura chimica dei prodotti.
